

TECHNICAL RIDER

IN YOUR FACE

office@momomento.com

STAGE

Minimum Dimensions: Depht 8m
 Width 10m
 Hight 4m

If possible, attach a bar or something similar to the front edge of the stage to prevent juggling balls (Ø 7cm) from rolling away.

We will bring the table and all the props by ourselves.

BACKSTAGE requirements

heated with mirror
toilet
bathroom sink
ideally a room to warm up (approx. 2x3m)

Sound

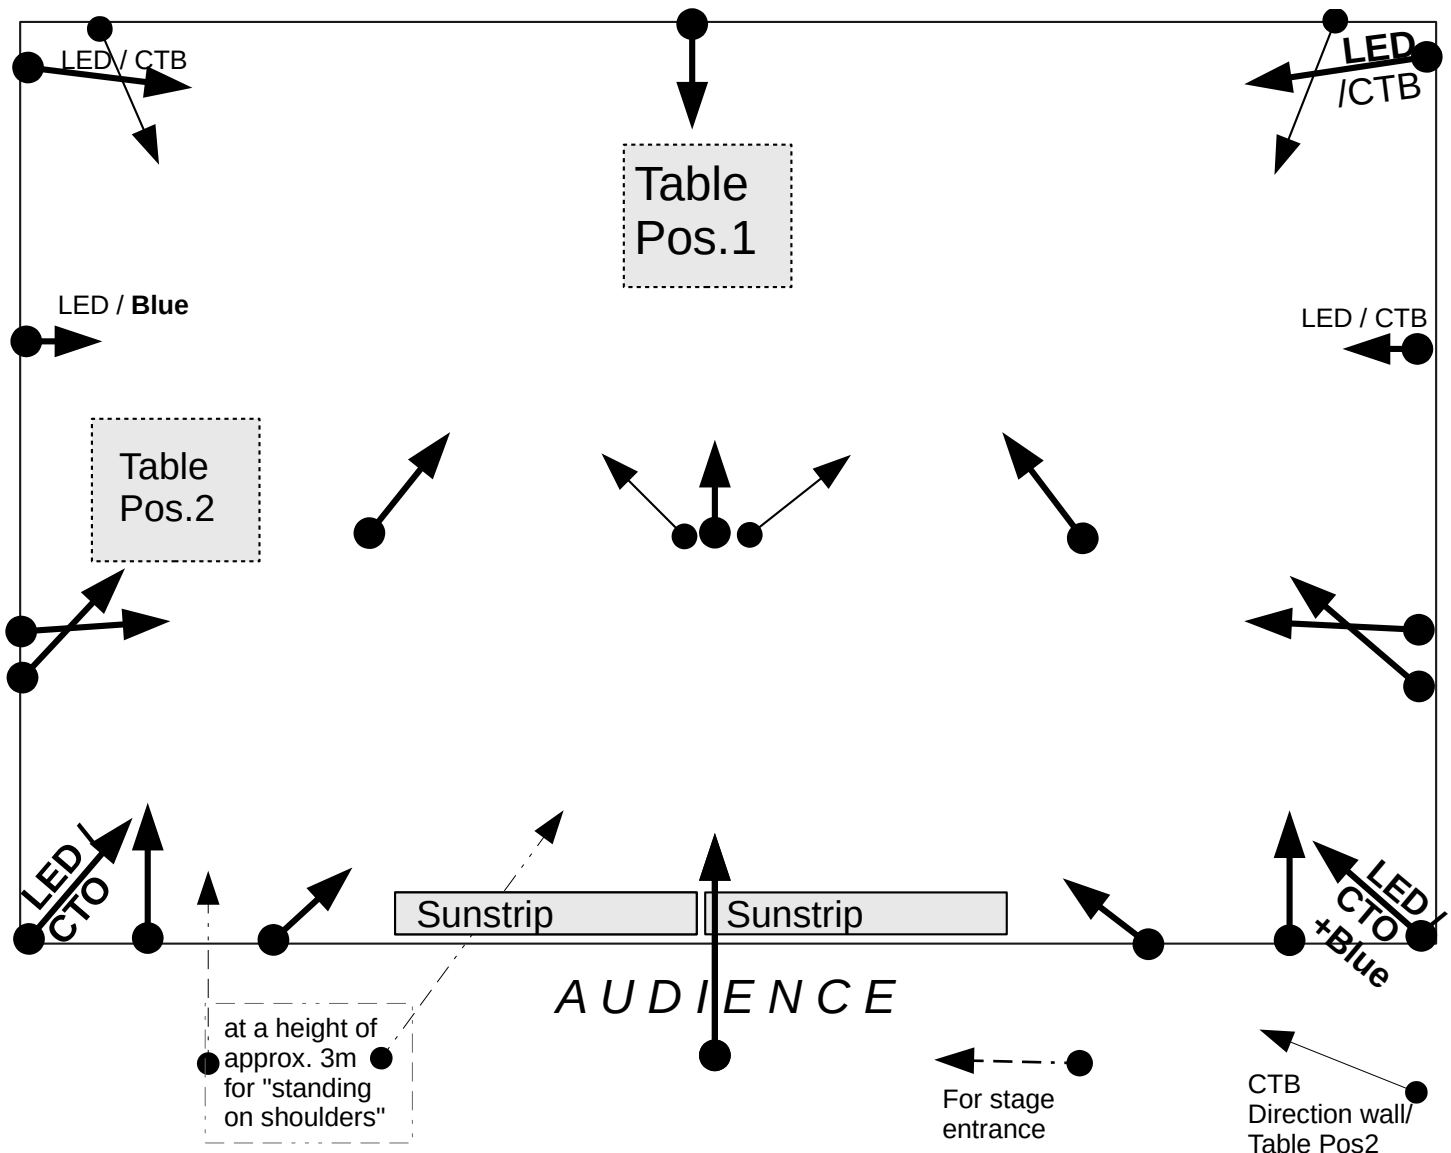

Required:

sound mixer with
stereo jack input including cable to laptop
microport input (for radio receiver headset)
6.35 mm jack input (for pickup-ukulele)
stage monitoring

We bring:

Wireless microphone (S/E) – headset with bodypack transmitter incl.
connection for microphone connection
Wireless pickup (S/E) – 6,35mm jack (for ukulele)

LIGHTING MAP - IN YOUR FACE

Ideal requirements - if this is not possible, please let us know! Thanks

Sunstrips: *Halogen Showtec 550W each*
1 channel operation,
3-pin DMX connection required,
2x fixed current,
on floor

Maybe we can bring our own if the organizer does not have one (please let us know)

LEDs (RGBWA capable) 3 pieces or more

If there are no LEDs, we need white light correction foils (CTB and CTO) plus a lamp extra (dark) blue foiled with floor stand (front right edge of stage) to tell a TV or night.

The power of the lamps (W) should correspond to the size of the room, if possible soft light / Fresnel lenses.
